- Procurement and Contracts, including Alternative Delivery Strategies
- Organizational Development, Alignment, Culture, and Executive Coaching
- Legal Support and Expert Witness Services
- Project Risk Analysis

About PRG Advisory Services

The Premier Resources Group's expert advisors are industry professionals with "real world" engineering, construction, and business experience. Our advisors have extensive experience in leadership and executive positions in multiple Fortune 500 companies and global construction & engineering firms. Operating as one team, we pull from our diverse backgrounds across multiple industry sectors and business units to customize solutions that meet your specific needs.

We will partner with you to identify opportunities, develop action plans, and work side-by-side with your team through implementation. Bring us your toughest challenges and we'll help solve them!
