

Operational Support

PRG's expert advisors are industry professionals with decades of "real-world" engineering, construction, and business experience. With the goal of achieving operational excellence, our expert advisors can work with your team to increase efficiency and supercharge business results.

- Improve processes, procedures, systems, and maximize corporate efficiency while reducing waste
- Organizational risk analysis, business resilience, and adversity management

About PRG Advisory Services

The Premier Resources Group's expert advisors are industry professionals with "real world" engineering, construction, and business experience. Our advisors have extensive experience in leadership and executive positions in multiple Fortune 500 companies and global construction & engineering firms. Operating as one team, we pull from our diverse backgrounds across multiple industry sectors and business units to customize solutions that meet your specific needs.

We will partner with you to identify opportunities, develop action plans, and work side-by-side with your team through implementation. Bring us your toughest challenges and we'll help solve them!
