

**Robert Dresser**  
Premier Resources Group (PRG)

Advancing Your Organization’s Unified Mission Towards High Performance

Robert is a proven strategic leader with the ability to transform visionary ideas into significant value-based projects by leveraging human capital and leadership capabilities. He has over 35 years’ experience in the construction industry, excelling at leading operational and business development across the U.S.A. and international markets. Utilizing his leadership and development skills, Robert has been able to transform businesses and projects from conception stages, into high performing projects and companies. He is an industry leader in creating party alignment within the project arena wherein multiple vested interests participate. Robert facilitates the development of a unified project vision by all interested stakeholders; owners, engineers, and self-performed constructors, to deliver the highest quality projects in the most timely and cost-efficient manner.
